7 Camelbak Groove Water Bottle

You absolutely need a water bottle to take to the gym, and the Camelbak Groove is both practical and eco-friendly. With a built-in filter that lasts up to three months, the Groove purifies tap water for you so you can stop buying bottled water altogether (a huge money-saver!). No matter where you fill it up, you know you are drinking clean water, while also reducing the amount of plastic you use.

Get it from: Camelbak, \$25
