Fuel efficiency and safety are standard in the new SUV

## Camelbak

Arc 4 Run Belt

The Camelbak Arc 4 includes four of the brand new Podium Arc bottles, which have the same cap features of the original Podium, including the high flow Jet Valve. The bottle shape is meant to fit in the palm of the hand for an easy grip. Also, the integrated bottle cages are specifically designed, so the bottles can be removed and replaced while on the move. The belt-hydration system retails at \$60.
